Re: Year-End Report (12/01/2013-12/31/2013) and February Monthly Report (01/01/2014-01/31/2014)

This memo is to respond to your letters dated May 7, 2014.

Arman, as we discussed in our phone conversation, we are aware that corporate contributions are prohibited under Federal law, and that we have a rigorous process ensuring compliance with all FECA regulations.

Our membership is comprised of over 350,000 small business owners and many of the contributions we solicit are derived from sole proprietor or partnership businesses. These contributions are reported on our reports with the attached memo entry stating the individual who is attributed to the contribution.

We receive, on average, about 3,000 contributions per month with approximately 20% of these being deposited into our Federal account and the remainder deposited into our non-Federal general treasury account. We exercise due diligence in researching each contribution that might be considered to be drawn from a non-permissible source.

Please feel free to contact us with any additional questions.

Thank you.
